

## Architectural Designer

TRA Design is a leading architecture and interior design firm located in Walnut Hills with unique talents and a broad range of portfolio work.

We provide full-service architecture and interior design services for the corporate, multi-family, hospitality, and entertainment markets. Our team of professional architects and designers are constantly seeking ways to improve their design skills and flex their creative muscles while also actively contributing to our fun and unique office culture. It is because of our dynamic team that we are able to provide exceptional design work for our clients while also meeting our own high expectations.

TRA Design is looking to add an Architectural Designer to participate in these efforts and grow alongside our design team.

In addition to possessing a passion and skill in translating client goals into the built form, TRA Design is looking for a candidate that also has the following work ethic: team-oriented, a curious mind that always wants to learn, self-motivation, strong organizational skills, and enjoys working in an open office environment.

### Qualifications

- Bachelor's degree in Architectural degree or related field
- Preferred to have Masters degree in Architecture
- 2-5 years of commercial design experience, co-op experience considered
- NCARB Record, or pursuing licensure a plus

### Specific responsibilities include but are not limited to:

- Schematic design of both architectural and interior design projects
- Development of presentation materials to effectively communicate design intent
- Development of Construction Documents, ensuring code compliance and close coordination with the Architect
- Assistance in Construction Administration including answering RFIs and submittal review
- Remaining up-to date on design trends, materials, and technical execution

### Skills

- REVIT (proficiency)
- MS Office Suite
- Adobe Creative Suite
- Strong verbal and written skills
- Understanding of construction documents, elevations, sections and details

- Basic knowledge of IBC Building Codes and ADA guidelines
